

## WHERE'D YOU GO? } for cardiac care.

In St. Louis, where you went to high school says a lot about you. So does where you went for cardiac care. And people like Devra Brandon are saying great things about St. Anthony's Medical Center. After the birth of her son, she had problems with her heart. She put her trust in St. Anthony's and the experience gave her new life. It has one of the area's largest cardiac care programs – offering a team of dedicated specialists, advanced technology, a new Heart and Surgical Pavilion, and St. Anthony's premier Heart and Vascular Institute.

And for this former drama student, that made all the difference.  
No drama here. Just dedicated cardiac care.

I went to St. Anthony's. Where'd you go?
